

## Pilot - Air Traffic Controller Safety Seminar

Join local KBFL area pilots and FAA Air Traffic Controllers Serge Byakov and Hector Perez in an informative safety seminar highlighting operations in both the local and national airspace system. This seminar will help pilots of all experience levels stay current in air traffic control issues, review recent local incidents and get answers to questions pertaining to ATC. An aviation mishap involving ATC will be reviewed.

Safe pilots operate in controlled airspace effectively and efficiently. Polish your skills in working alongside ATC to conduct safer flight operations.

Bakersfield Flying Club is located on the second floor of the Bakersfield Jet Center.

Fly-Ins welcome. Top your aircraft off and avoid the ramp fee--let the attendant at the counter know that you're attending the FAAST seminar at BFC.

### A message from the National FAASTeam Manager
