

## Emergencies NOT Found in the POH/AFM

The POH/AFM under Section 3 contains procedures to manage emergencies. These procedures do NOT contain details/guidance for off-nominal conditions, such as an alternator failure in IMC or at night. In these situations, procedures will vary. What about other emergencies not in the POH/AFM such as vibrations, fuel/oil in the cockpit, or limited/reduced control power? It's the pilot's responsibility to manage the emergency to a safe outcome. This presentation will review select emergency procedures under various conditions and provide insight on managing emergencies that you normally would NOT find in the POH/AFM.

Fresno County Sheriff's Air Squadron hangar at Fresno Chandler Executive Airport (KFCH), just inside Gate #2 off of Teilman Ave north of Kearney Blvd. NOTE: Gate code required for access. If you don't have a gate code, please call prior to arrival: 559-417-8112
