FAASTeam presents:

Aeronautical Decision Making and Single Pilot Resource Management

Join Bakersfield Flying Club instructors Adam Gomez and Richard Andrade for an interactive discussion of aeronautical decision-making and single-pilot resource management. Using the PAVE checklist and practical flight scenarios, we'll explore how pilot readiness, aircraft limitations, environmental conditions, and external pressures influence decisions before and during flight. Pilots of all experience levels are encouraged to participate, share perspectives, and consider: "What would I do?"

Bakersfield Flying Club is located on the second floor of the Bakersfield Jet Center.
