

Approach and Landings

A stabilized approach helps to make for consistent landings. Learn what a demonstrated cross wind component number really means. What is a safe technique for landing in strong cross winds? Do you know how to avoid having a stall/spin accident while turning base to final? Find out if there is a secret to short and soft field landings.

Directions: Grand Canyon Room at the North Las Vegas Terminal

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
