

# Single Pilot Resource Management (SRM), Why do we have a Safety Program for Aviators?

SRM (single pilot resource management) is the March, 2015 General Aviation Joint Safety Committee topic of the month. A power point discussion about the resources that a single pilot has available while operating their aircraft.

"Why there is a safety program for aviators" will be an open forum discussion for pilots, mechanics, and others concerned with aviation safety. We will discuss how to develop a safety culture in order to prevent accidents and save lives. Bring your stories of what you have done to improve aviation safety.

**Directions:** South Conference room on ground floor of HND terminal

## A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
