

Las Vegas FSDO presents:

# **CFI (Certificated Flight Instructor) Open Forum: Transitioning from Steam Gauges to Glass Cockpit**

FAASTeam Flight Instructor Open Forums provide an opportunity for Flight Instructors, Ground Instructors, Designated Pilot Examiners, and the FAA Safety Team (FAASTeam) to meet and discuss one or more of the Top 10 Causal Factors in General Aviation Accidents at each of the Open Forums. This CFIOF presentation will be made by Senior Airman Earl Jobson, CFII/MEI. Earl will share a very informative presentation as well as his insights on the subject and will answer questions. This seminar is primarily directed at CFIs but ALL pilots are welcome and are especially encouraged to attend. One goal of this forum is to increase CFI effectiveness in guiding pilots through a transition from steam gauges to glass panels

**Directions:** The North Las Vegas Air Terminal building is at the end of Airport Drive right off of Rancho Drive. Ample parking is available in the front parking lot, and aircraft may be parked directly ramp-side of the terminal building. Parking for both cars and aircraft is always free.

**A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
