

Las Vegas area FAASTeam presents:

# Runway Safety--Incursions and Surface Issues

Runway Safety Program Manager, Chris Diggons studies Airport issues like trends in Runway Incursions, surface incidents, and other safety-related occurrences happening in the Movement Area, whether they be pilot deviations, Operational Errors, and even pedestrian and vehicle deviations. Chris will discuss findings here in the Valley from our big three airports: North Las Vegas, Las Vegas, and Henderson. Find out what's going on and learn from others' experiences to keep yourself safe and out of trouble. Our local controllers will be on hand to answer questions, as well as the State of Nevada Dept. of Aviation, and County Dept. of Aviation folks.

**Directions:** During the remodeling of the main terminal (VGT), the FAA Safety Meetings are being held in the former Vision Airlines building in the Grand Canyon Room. Lots of free parking out front; and lots of parking on the ramp for fly-ins.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
