

Maneuvering Flights

This presentation will discuss maneuvering flight. It's still the phase of flight where most fatal GA accidents occur – more than 25% of all fatal accidents – and half of those accidents involve a Stall/Spin Scenario. Common Maneuvering Flight tasks will be described along with discussing common maneuvering flight accident scenarios. Finally some tips for successful maneuvering flight task will be discussed.

Directions: See attached map.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
