

FAASTeam presents:

# Flying Through March ARB Airspace

### Topic Discussion Points:

- General overview of Southern California airspace and sectorization.
- Airspace delegated to MARCH ARB
- Class C airspace, requirements, and limitations
- MARCH ARB traffic flow, radar patterns, and tower pattern descriptions
- Increased air carrier traffic into MARCH ARB and the impact to the local flying community
- Military traffic and possible incompatibility mixing military and civilian aircraft types
- Public use of the FBO (Million Air) facilities at MARCH ARB
- Active parachute jump zones and hazards to aircraft
- VFR/IFR call-ups and procedures
- Tower to Tower flight plans and where to find the publications
- Local airports and traffic flow
- Areas with increased possible hazards due to conflicting approach or departure corridors
- General Q&A

**Directions:** Follow directions in the attachment.
