

How to Maximize Your Performance Takeoffs and Landings

Why not challenge yourself to maximize your performance takeoff and landing skills during the month of September? You can have fun while perfecting your technique. Reward yourself with an adventurous trip somewhere new and exciting. Join us for a discussion on how to get the maximum performance from your airplane when operating at short and/or soft fields. We will review crosswind takeoffs and landings as well.

Directions: American Flyers Hangar Classroom. Enter and sign in through main lobby. Go out to ramp and make left.

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
