

FAASTeam presents:

VFR Navigation

Although in Santa Monica, it is almost necessary to have an Instrument Rating, we also need to recognize the importance of utilizing pilotage and dead reckoning for VFR navigation. This seminar will go over how to use visual check points in order to navigate around both congested, and non-congested areas.

Directions: I-405 to I-10 West, Exit Bundy South, Right on Airport Ave. continue about 1.5 miles until you reach American Flyers on the Right hand side. Large blue and white sign.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASTeam) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
