

FAASTeam presents:

Mountain Flying

Mr. Colin Aro will discuss the considerations and deliberations that a general aviation aircraft pilot may want to consider before your next mountain flight. Mr. Aro owns and operates his own aviation business located in Reno NV and he will utilize his ample years of experience to educate the audience regarding the development of a wise course of action to allow for safe and efficient flights in mountainous terrain.

Directions: SE corner of airport..... next to last hangar row, hangar closest to the taxiway Please enter at south gate (about 500 ft south of Hillside aviation) Gate code #2846

A message from the National FAASTeam Manager

Over 10,150 AMTs earned an AMT Award last year. Will you, this year?
