

## What I learned from 30 yrs as an Aerial Survey Pilot

Mr. John Hedges, a 40 year aviator will discuss various aspects of he found to be import as a pilot flying GA aircraft in the western USA (including Alaska) for over 30 years as an Aerial Survey pilot and as an owner operator. Hint: his discussions will help you with regards to precise navigation (by looking out the windows) and in your cross country planning process. Mr. Hedges has a wealth of knowledge and you will be pleased to attend this seminar. This will be the 107th monthly consecutive safety seminar at Benton airport since the inception of the new FAA FASTeam concept.

**Directions:** Driving: Park either north or south of the FBO, then walk through the man gate to the lobby and then into the main hangar. Flying: Park to the north of the FBO in the transient parking and walk to the lobby and then into the main hangar.

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
