Captain Steve Howard will present and discuss the operations of the fire station with specific regards to the aviation requirements (FAR Part 39). He will explain the training, the response times, and how the equipment is utilized if called upon to provide aviation Crash, Fire or Rescue support. Additionally there will be video(s) and a chance to explore the aviation fire fighting tools at the fire station.

**Directions:**

**Flying:** Land at RDD, taxi to the Redding Jet Center, park just east of them in transient parking and then walk west to fire department building just north of the Redding Jet Center.

**Driving:** From Interstate Five (5), exit on to Knighton road, go east to the airport (about two miles) at the airport entrance turn north/left onto Airport road, go 1/4 mile and then turn right/east onto Flight avenue ........ go to end of street, Fire department at end, park in the parking areas and then walk through the front door of the fired department and you will be directed to the seating area.
