

FAASTeam presents:

Mountain Flying - Tips for Northern California and Southern Oregon

Mr. Irwin Fust, CFI, and FAASTeam representative will discuss his tips for flying around the mountains of northern CA and southern Oregon. Mr. Fust has flown his 65 horsepower Aeronca "Chief" aircraft to all the mountain airports he will discuss. He has 17 solid, comprehensive tips for safely flying in the mountains. It is suggested that you bring something to write on and write with to note what his tips are so you may review later on.

Directions: Driving: Google address above and follow directions..... however you will end up on the west side of Benton airport, near the National Guard building. The EAA Q Hut is located inside the airport security fence, but you will park outside the fence and walk to the north personal gate entrance to the Q Hut, once inside you will enjoy a fabulous two-hour educational experience. :)

Flying: Please park just south of the SUN SHADE hangars on the west side of the Benton airport, then walk 300 feet to the north personal entrance gate to EAA Chapter 157 Quonset Hut building.... again, once inside you will enjoy a fabulous two-hour educational experience. :)

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
