

FAASTeam presents:

Third Class Medical Reform

On July 15, 2016 the president signed legislation which enabled the overhaul for the requirements for a third class FAA medical. On January 10, 2017, the FAA released the regulations which will govern the issuance of this type of medical. This lecture will include the requirements that airmen must meet to obtain BasicMed. The specific limitations and legalities of this legislation will be reviewed.

Pilots will be able to self certify if they have a current drivers license and have passed an FAA physical (regular or special issuance) in the past 10 years. They will need to take an on line course and pass a quiz, every 2 years. They must visit a licensed physician every 4 years. They are not eligible if their medical has been cancelled, revoked or withdrawn.

Directions: The Nut Tree Airport is located near the junction of interstate 80 and 505. The meeting will be on the first floor of the administration building in the conference room.

A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!

The FAA Safety Team (FAASafety Team) is committed to providing equal access to this meeting/event for all participants. If you need alternative formats or services because of a disability, please communicate your request as soon as possible with the person in the "Contact Information" area of the meeting/event notice. Note that two weeks is usually required to arrange services.
