

Summer Cross Country Mountain Flying

ATP, Flight Engineer, Aircraft Mechanic....Local pilot, pastor (some say living legend) and 50 years of aviation experience ...
Pastor Mike Stiener.....will present a discussion regarding flying in the mountains of the western USA. He completed a trip a couple of years ago in a Cessna 150 from Redding, CA to Oshkosh, to Ohio and back to Redding... and he would like to share what he observed and what he learned.

Directions: FLYING: Park on the south side of the SUN SHADE hangars, located on the northwest side of the airport, then walk about 300 feet to the north entrance of the EAA Q Hut.... then get your coffee, buy a raffle ticket, find a seat and be absolutely thrilled with the presentation.... :)
DRIVING: Follow your GPS to the hut... then park anywhere along the fence on the north side of the building... then following the walking directions posted above...

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
Sign up for the FAA's safety services at www.FAASafety.gov!
