

The Aerodynamics of ???

Stuff a PIC (Pilot in Command, FAR 91.3) might just want to know about the aircraft they are flying. Information from the FAA and the INTERNET and other resources will be utilized to educate and inform the attendees.

Directions: DRIVING: USE your GPS and You are going to end up on the WEST side of Benton airport..... when you find the building.. please park along the fence that is north and west of the EAA building. Then walk to the north entrance through the man gate into the Q-Hut, then get your coffee, get a donut, but a few raffle tickets and prepare to have a GREAT DAY in aviation.... :)

FLYING: Taxi to the center west side of the airport, empty spaces just north of the open shade hangars, then walk west 300ft to the north entrance of the EAA Quonset hut building.. and follow the instructions above.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
