

FAASTeam presents:

# A refresher on Airspace

How much do you know about the Airspace you fly in. As a pilot, you are required to know the airspace within which you fly and the regulations within or around that particular airspace. What are the regulations regarding flight in Class C Airspace? How about Class Bravo? Do you know your Special Use Airspace? What about visibility and cloud clearances? Whether you are a current pilot, a Rusty Pilot or a Student Pilot, this seminar will bring you up to date on flying in the National Airspace System. Local Certified Flight Instructor and FAA Safety Team Representative Irwin Fust will explain the many classes of Airspace and the rules that apply within each class. Come see how much you don't know or have forgotten about our National Airspace System.

**Directions:** The Safety Seminar will be held at the Corning EAA hangar on the Corning Airport. If you're driving, enter the airport at the north end and travel south along the ramp to the EAA hangar. Park alongside hangars. If you are flying in, park at transient parking and walk to hangar.

#### **A message from the National FAASafety Team Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.
