

## FOREFLIGHT Basic and Advanced User Training

Paper charts and dead reckoning can be a thing of the past. If you aren't using Foreflight on an IPAD you are missing out on a world of technology that will help you know where you are at all times (unless your IPAD overheats!). We will review the basic utilities of Foreflight, showing you how to download flight plans, charts, weather, as well as the advanced features which are coming out all the time. You won't want to miss this FREE seminar!

**Directions:** Fly In to O85 (Benton Field) park at transient ramp; walk in to hangar;  
Drive in and park in the lot next to the FBO walk thru the Airpark Cafe gate (turn left, enter the hangar)

### A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Join us on Facebook: <https://www.facebook.com/groups/GASafety/>

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
