

FAASTeam presents:

# Pilot Proficiency

GA airplanes and avionics require a higher level of pilot proficiency than ever before and today's pilots need strategies and techniques to stay up to speed. Making decisions inside and outside the cockpit requires fast thinking and confidence in your airplane.

Mike Smith will share his experience as a pilot, flight instructor, and aviation expert. He will also provide advice on how to make your own plan for proficiency. It's easier than you think. Join us for this informational seminar to increase both your confidence and safe practices when you fly. Mike Smith is the CEO of Mike Smith Aviation. Mike holds an ATP and is a CFI, MEI and CFII. In addition, Mike is an A&P and IA. With over thirty years in the industry, Mike's experience ranges from piloting hot air balloons, flying a vintage Tiger Moth in the Australian outback, to spending time as the deputy director with CASA, Australia's Civil Aviation Safety Authority. Mike is an SMS pioneer and has implemented SMS programs around the world.

**Directions:** Proceed to the parking area near the Napa County Airport Terminal Building. Enter the Terminal, turn right in the lobby, and proceed down the hallway to the Airport Administration Office. Through the doorway, conference room will be to your left.
