

FAASTeam presents:

Weather Products

Terry has been kind to the WINGS program moderated by William Hill over the years, I believe this will be his 8th presentation since 2007 (all under the WINGS program).

Mr. Terry Lankford (the author of nine books on aviation weather) and a 33 year FAA Flight Service Station briefer, a CFI, and an all-around great person will present a 90-minute lecture regarding his observations of how aviators misinterpret and misunderstand the aviation weather products available.

Directions: Flying In: Taxi to the northwest side of Benton, park near the SUN shade hangars, walk 300 feet to the north end of the EAA building.

Driving: Use your GPS device, enter 2955 South Street, 96001. Park on the north side of the fence on South Street and walk to the north entrance to the EAA building.

A message from the National FAASafety Team Manager

Earn your WINGS to get a chance to win a cash prize. Go to
