

Come and Learn How to Master the FAA Website

No Excuse to be ignorant with the internet available to all the population if the US.

An examination of all the tools available to Pilots and Technicians on the FAA website.. in particular www.faasafety.gov.

Utilizing live internet, each major section will be presented to the attending audience and a brief discussion of each area will take place.

By the end of the seminar, each attendee will know how to take advantage of the multiple tools available to become a subject matter expert regarding the National Air Space System and especially safety educational aspects for both certified pilots and certified aviation maintenance technicians.

Flying In: After landing, proceed to the northwest corner of the airport, when you see the **Sun Shade Open hangars, proceed WEST on the tarmac** and park anywhere near the west edge. Then walk **300 feet to the EAA building and enter at the north door.**

Event Details

Sat, Sep 13, 2025 at 10:00 PDT

EAA Chapter 157 HQ Quonset Hut

2955 South Street

Redding, CA

Contact: William Hill

5304109525

ATPBill@duck.com

Select #: WP25139050

**Lead Representative WILLIAM V.
HILL n/a**

Driving to the seminar:

The easiest thing is to enter the street address into your GPS on your phone or vehicle map device.... If you have neither then make your way to downtown Redding, proceed to the Jail (tall building) and find the street called Placer, then proceed west about 13 blocks. At the top of the hill you will pass the entrance to Benton airport (**DO NOT TURN THERE**), proceed to the next traffic signal (**Pleasant street**) and then **turn left**, go one block and you will be looking at the EAA building. It will be on your left, part anywhere off the street (Also the EAA building is next the the Army National Guard unit/facility).
