

## Flight Tracking Software

An examination will be made of the popular flight tracking applications available with the Internet.

The speaker will show the attendees how these applications may assist the pilots in planing and gaining insight regarding destinations that the pilot will use. If one reviews the tracking software prior to making the trip(s)... it may assist the PIC in visualizing the flow of aircraft and the airspace at the destination(s) and possibly while enroute.

ADS-B Exchange, Flight Aware, Flight Radar 24, in particular will be reviewed and explained.

**Flying In:** After landing, proceed to the north west corner of the airport, when you see the Sun Shade Open hangars, proceed WEST on the tarmac and park anywhere near the west edge. Then walk 300 feet to the EAA building and enter at the north door.

**Driving to the seminar:**

### Event Details

Sat, Jun 13, 2026 at 10:00 PDT

EAA Chapter 157 HQ

2955 South Street

Redding, CA

Contact: William Hill

5302419268

atpbill@duck.com

Select #: WP25144814

Lead Representative WILLIAM V.  
HILL n/a

The easiest thing is to enter the street address into your GPS on your phone or vehicle map device.... If you have neither then make your way to downtown Redding, proceed to the Jail (tall building) and find the street called Placer, then proceed west about 13 blocks. At the top of the hill you will pass the entrance to Benton airport (**DO NOT TURN THERE**), proceed to the next traffic signal (**Pleasant street**) and then **turn left**, go one block and you will be looking at the EAA building. It will be on your left, part anywhere off the street (Also, the EAA building is next the the Army National Guard unit/facility.)
