

# STALL/SPIN AWARENESS & EMERGENCY MANEUVER TRAINING with RICH STOWELL

## SEMINAR & INSTRUCTION

Find out what you need to know to avoid stall/spin accident scenarios. The discussion then broadens to emergency maneuver training with a review the differences between spirals, stalls, and spins, as well as how to avoid wake turbulence. Learn the keys to maximizing the probability of surviving a forced landing and coping with control failures, as well as the critical sequence of events needed to recover from various unusual attitudes.

## THE INSTRUCTOR

Rich began instructing in 1987 after developing the Emergency Maneuver Training Program at CP Aviation, Santa Paula, CA, and has held a Master Instructor designation continuously since 1999.

Rich has conducted over 300 seminars around the world, hosted numerous educational DVDs, and authored 80+ articles and two aviation textbooks: "Emergency Maneuver Training" and "Light Airplane Pilot's Guide to Stall/Spin Awareness".

## COST

\$375 / participant for seminar and flight instruction (in own aircraft)

+aircraft rental (\$169 / hr for Decathlon, call for Pitts or Extra rate and availability)

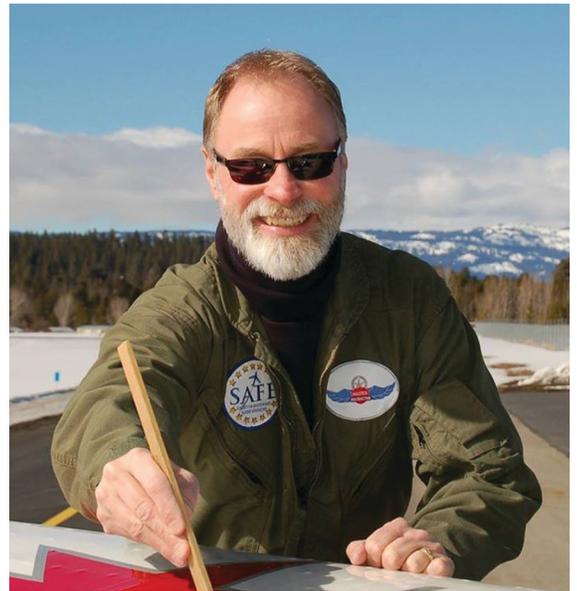

Space is Limited!
