

## Mountain Flying Tips & Techniques

The entire Western United States, with the exception of the California Central Valley, is designated as Mountainous Terrain. This seminar takes a practical approach to developing mountain and bush flying skills. You will gain the knowledge necessary to get the most out of your aircraft when it counts and learn about hazards unique to flying in mountainous terrain. What you don't know CAN hurt you, so come expand your knowledge at this informative seminar. NOTE: this seminar has a cost and seating is limited. Please contact [jim@RAMaviation](mailto:jim@RAMaviation) for cost and registration information.

**Directions:** Hwy101 North or South – exit at Airport Blvd. Go west on Airport Blvd, turn left on Flightline Drive, the airport manager's conference room is immediately on your right.

### A message from the National FAASafety Team Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at [www.FAASafety.gov](http://www.FAASafety.gov)!
