

Best Glide Speed and Preflight after Maintenance and the PCAM Flight Wing

Our February safety topics will include a discussion on best glide speed – what it is, where and when to use it, and tips for conducting a thorough preflight inspection after aircraft maintenance. In addition we will have a presentation on the PCAM Flight Wing and the exciting (and flyable!) projects they are working on. Please join us!

Directions: Hwy 101 North or South – exit at Airport Blvd. Go west on Airport Blvd, turn right on Skylane Blvd, second right into Sonoma County Office of Education (SCOE). Follow signs in building to meeting room.

A message from the National FAASTeam Manager

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA's safety services at www.FAASafety.gov!
