FAASTeam presents:

Pilot Age/Experience Factors and BasicMed
Dr. Joy L. Taylor and her colleagues at the Stanford University Aviation Research Lab performed a multi-year longitudinal study on the relationship between aging and pilot performance. Dr. Taylor’s presentation will discuss their study and the influences of age and aviation expertise on longitudinal flight simulator performance.

Jon Prater, Aviation Safety Inspector (ASI) at OAK FSDO will be on hand to discuss and answer questions on the Third Class Medical Reform Rule, also referred to as “BasicMed”.

**Directions:** Take the “A” Street exit from Highway 880, head west (towards the Bay) on West A Street to Hesperian Blvd. Stay in the right lanes and cross straight over to the next traffic light (at the Target shopping center) and get into the left turn lane for Skywest Drive. Opposite Home Depot on Skywest Drive, turn right towards the KHWD control tower and proceed to the Hayward Airport Administration building. Ample parking is available, but please be mindful of reserved/restricted parking spaces. The meeting room is just inside the glass doors to the right.

---

**A message from the National FAASTeam Manager**

Invite a fellow pilot to the next WINGS Safety Seminar in your area.

Sign up for the FAA’s safety services at www.FAASafety.gov!
