

FAASTeam presents:

# **What Is New Flying Into and Out of Truckee and Avoiding Hazards of Controlled Flight Into Terrain**

Join Truckee Tahoe Airport Outreach Coordinator Mark Covey for an interesting and informative presentation on the in's and out's of flying into Truckee-Tahoe airport (KTRK). Maybe you are a regular flyer to the beautiful Truckee Tahoe area or want to try something new. Mark will share the latest updates including the year-round tower, visual procedures, flight planning resources and much more.

To ensure a safe visit to KTRK we will also cover the FAASTeam November Topic of the Month – Avoiding CFIT Accidents. Jim, Art and George will review a couple of notable CFIT accidents and look at good operating practices to ensure that you are never involved in a CFIT accident.

**Directions:** Please register for What's New Flying Into and Out of Truckee and Avoiding Hazards of Controlled Flight Into Terrain at:

<https://attendeegotowebinar.com/register/2212710386850339598>

After registering, you will receive a confirmation email containing information about joining the webinar.
