

Senior Pilots - How Age Affects Pilot Performance

As we accumulate more birthdays, our reaction time, mental processing, vision, cognitive abilities, memory all degrades. All these parameters effect our flying and ability to operate safely. As part of the presentation, there will be an in depth discussion on how to identify the effects of these factors and methods to compensate for the age affects related to pilot performance.

Five Rives Aviation is located in Livermore CA adjacent to the Livermore Municipal Airport (KLVK). Exit Interstate 580 at Airport Blvd and proceed south to Terminal Circle. Turn right at Terminal Circle and proceed straight. The airport terminal will be on your left and free terminal parking on your right. Please park in the terminal parking and walk to 700 Terminal Circle which is directly west of the terminal. Enter Five Rivers Aviation through the main doors and proceed directly to the EAA 663 Meeting room.
