

EAA Chapter 663 August VMC Club Meeting

The EAA VMC Club provides a "hangar flying" experience organized around visual flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences.

The scenario we will discuss at this meeting is: *You, as our pilot, are making a VFR flight in a Cessna 172 on a perfect CAVU day. Shortly after takeoff, you smell smoke. What precautions can be taken to minimize risks, and what sorts of things should you be prepared for?*

Bring your EFB, your experience, and your questions, and be ready to participate.
