

EAA Chapter 663 February 2026 VMC Club Meeting

The EAA VMC Club provides a "hangar flying" experience organized around visual flight, in order to promote safety, education, and proficiency.

Every meeting consists of a scenario presentation and group discussion about unusual or interesting charts, changed rules and procedures, and member experiences.

This month's scenario is titled "**Upside Down**" and describes an actual flight as follows: You are preparing for a one-hour afternoon flight in a Piper Cherokee, with some areas of marginal weather reported along the route. What information should you consider before making the flight, and what precautions can be taken to minimize risks, and what sorts of things should you be prepared for?

Bring your EFB, your experience, and your questions, and be ready to participate.
