

Livermore IMC Club - EAA Chapter 663

The EAA IMC Club organized around instrument flight, in order to promote safety, education, and proficiency.

Each month, the club provides a "hangar flying" experience by exploring an instrument flight-related question and a scenario presentation followed by a group discussion. The goal is to enhance knowledge of instrument flight, aeronautical decision-making, and in-flight awareness.

This month's scenario and discussion will focus on: Guided Visual Approach

All are welcome. You do not need to be an EAA member or instrument rated pilot to attend. Bring your EFB, your experience, and your questions, and be ready to participate.

We will also be discussing how you can earn **WINGS** Credit to increase Phased Pilot participation in the program.

Join this online-only meeting via the Zoom link: <https://us06web.zoom.us/j/6635555200>

Passcode: 663
