

IMC Club - Livermore EAA Chapter 663

The EAA IMC Club organized around instrument flight, in order to promote safety, education, and proficiency.

Each month, the club provides a "hangar flying" experience by exploring an instrument flight-related question and a scenario presentation followed by a group discussion. The goal is to enhance knowledge of instrument flight, aeronautical decision-making, and in-flight awareness.

This month's video scenario titled "Chilling Choices" is based on an actual flight in IMC in the middle of a frigid Minnesota winter. What precautions can be taken and alternatives you should consider in the event of an emergency? After the scenario discussion, time permitting we will analyze an instrument approach chart.
