

FAASTeam presents:

Unusual Approaches-Encore Presentation

The term "unusual approaches" conjures up images of Aspen, CO; Bozeman, MT; Jackson Hole, WY; and just about every airport in Alaska. But unusual approaches are just as common in places like Baltimore, Boston and New York. They're everywhere, and they can turn a standard approach into a head scratcher at the most inopportune time. In our Unusual Approaches webinar, we'll talk about the terrain, obstacles and airspace designs that turn standard approaches into the unusual. We'll show you how to break down several unusual approaches, the keys to planning and navigating them successfully, and give you the kind of confidence that will make a straight-in approach to 200 and ½ seem, well, mind-numbing. This is a live encore (including Q&A) of our popular 2015 presentation!

Directions: To attend the "Unusual Approaches" webinar, please register using this link:<https://cc.readytalk.com/r/fxchiqyykqe8&eom> . Once you register, you will receive a confirmation email that will contain your unique link to the webinar. You will not need to register on the faasafety.gov site to receive credit for attending this online webinar.
