

Summary of Interception Procedures

<i>Intercepting Aircraft Signal</i>	<i>Meaning</i>	<i>Intercepted Aircraft Response</i>	<i>Meaning</i>	<i>Depiction</i>
<p>Rocks wings; after acknowledgement initiates a slow level turn, typically to the left, into the desired heading</p>	<p>You have been intercepted</p>	<p>Rocks wings, follows intercepting aircraft's lead</p>	<p>I understand and will comply</p>	 <p>Interception Procedures</p> <p>Intercepting aircraft rock wings Intercepted aircraft Rocks wings</p> <p>Night Operations: Flashing of Nav Lights</p> <p>Means: You have been intercepted Means: I Understand and will comply</p>
<p>Night operations = flashing of navigation lights</p>		<p>Night = flash navigation lights</p>		
<p>Performs an abrupt breakaway maneuver with a climbing 90 degree turn without crossing the intercepted aircraft's flight path</p>	<p>You may proceed</p>	<p>Rocks wings</p>	<p>I understand and will comply</p>	 <p>Interception Procedures</p> <p>Intercepting aircraft performs an abrupt 90° climbing breakaway turn Intercepted aircraft Rocks wings</p> <p>Means: You may proceed Means: I understand and will comply</p>
<p>Circles airport, lowers landing gear, and files over runway in the direction of landing</p>	<p>Land at this airport</p>	<p>Lowers landing gear, follows intercepting aircraft and lands if runway is safe</p>	<p>I understand and will comply</p>	 <p>Interception Procedures</p> <p>Intercepting Aircraft: Circles airport, lowers landing gear overflies runway in the direction of landing</p> <p>Means: Land at this Airport</p> <p>Intercepted Aircraft Response: Lower Landing Gear and land if runway Safe</p> <p>Means: I Understand and will Comply</p>
<p>Night = additionally turns on landing lights</p>		<p>Night = turn on landing light</p>		

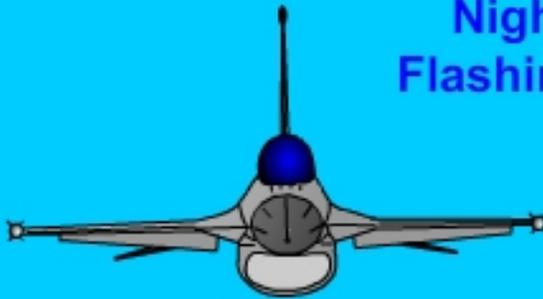

Summary of Interception Procedures

<i>Intercepted Aircraft Signal</i>	<i>Meaning</i>	<i>Intercepting Aircraft Response</i>	<i>Meaning</i>
Raises landing gear while flying over runway between 1000' and 2000' and continues to circle airport	This airport is inadequate	If the intercepted aircraft is required to go to an alternate airport, intercepting aircraft will raise landing gear and use intercept procedures	Understood, follow me
Night operations = intercepted aircraft will flash landing lights while passing over runway		To release the intercepted aircraft, the intercepting aircraft will perform a breakaway maneuver	Understood, you may proceed
Pilot switches all available lights on and off at regular intervals	Cannot comply	Performs breakaway maneuver	Understood
Pilot switches all available lights on and off at irregular intervals	In distress	Performs breakaway maneuver	Understood

Interception Procedures

Intercepting aircraft rock wings

Intercepted aircraft Rocks wings

Night Operations:
Flashing of Nav Lights

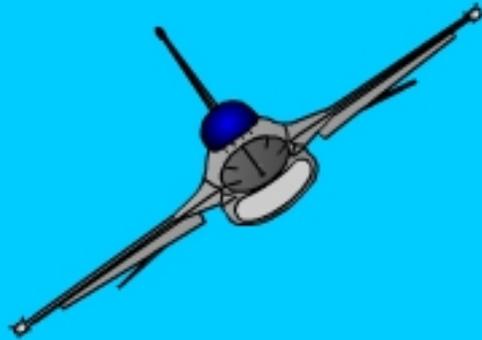

Means:
You have been intercepted

Means:
I Understand and will comply

Interception Procedures

Intercepting aircraft performs an abrupt 90° climbing breakaway turn

Means:
You may proceed

Intercepted aircraft Rocks wings

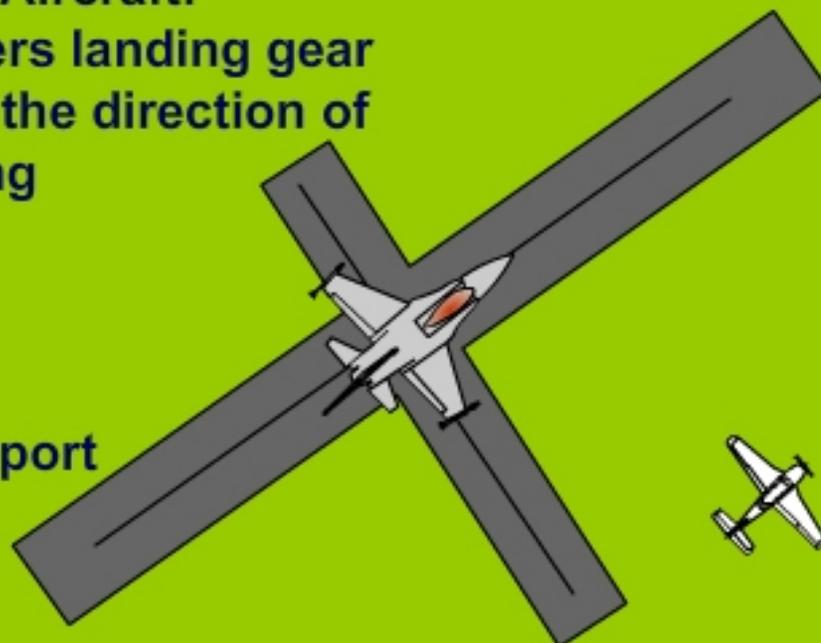

Means:
I understand and will comply

Interception Procedures

Intercepting Aircraft:
Circles airport, lowers landing gear
overflies runway in the direction of
landing

Means:
Land at this Airport

Intercepted Aircraft Response:
Lower Landing Gear and land
If runway Safe

Means:
I Understand and will Comply

Interception Procedures

Intercepted Aircraft Signal:
Raises Landing Gear over runway at
1000'-2000' and continues
to circle airport

Means:
This Airport Inadequate

Night Operations:
Flash Landing Lights
While Over Runway

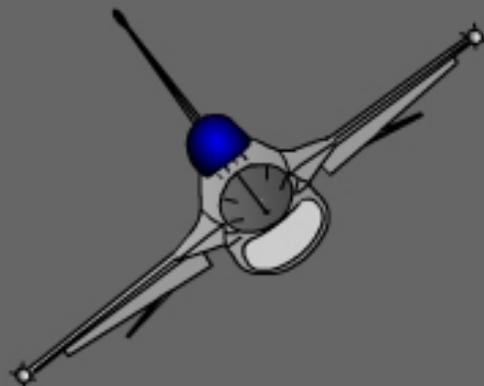

Intercepting Aircraft Response:
Will raise gear and use intercept
procedures

Means:
Understood, Follow Me

Interception Procedures

**Intercepting Aircraft:
Performs Breakaway Manuever**

**Means:
Understood**

**Intercepted Aircraft:
Pilot Switches ON/OFF all
Available Lights at
Regular Intervals**

**Means:
Cannot Comply
OR
In Distress**
