

QUAD CITY INTERNATIONAL AIRPORT

Runway 9/27 Reconstruction Program

CONSTRUCTION ALERT

Taxiway 'P' Earthwork Project

Issued July 2009

Work Being Completed Current – October/November, 2009

• What is the Taxiway 'P' Earthwork Project?

- A new parallel taxiway (denoted Taxiway 'P') will be constructed south of Runway 9/27 and operated as temporary Runway 10/28 during the reconstruction of Runway 9/27. The earthwork project is required before paving can begin on the new taxiway.

• Which runways and taxiways will be closed during this stage of construction?

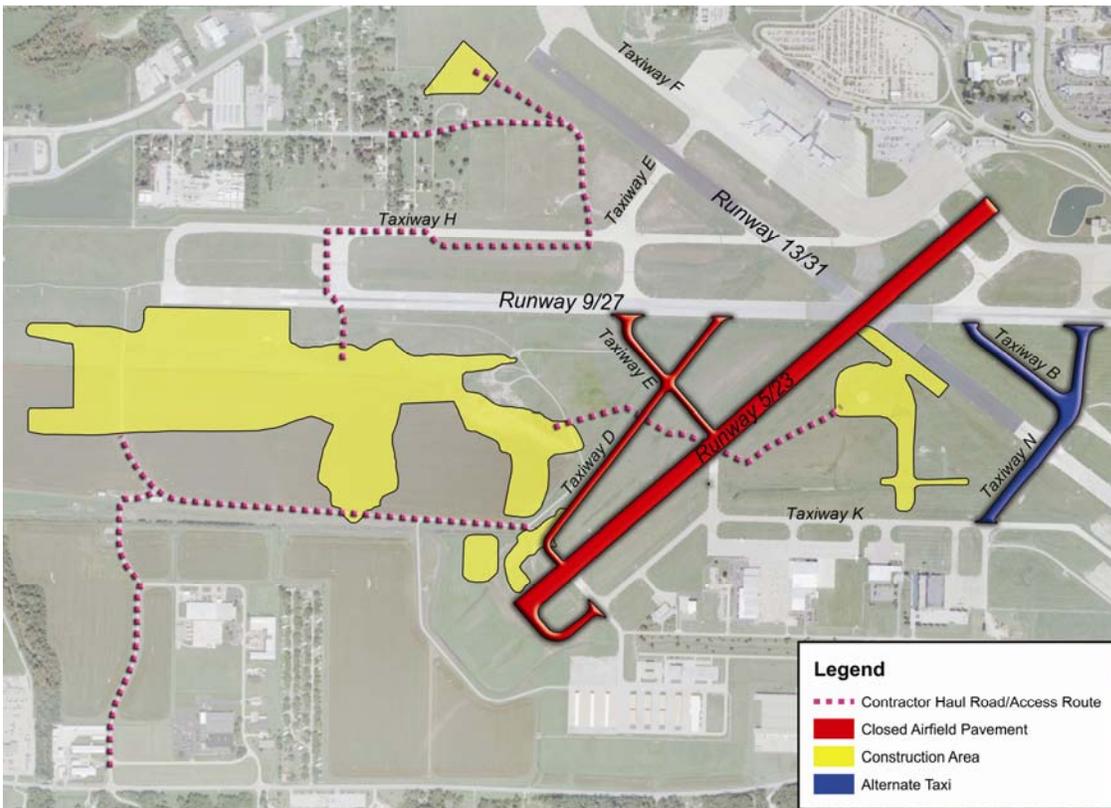

- Runway 5/23 will be closed for the duration of the project.
- Taxiways 'E' and 'D', south of Runway 9/27, will be closed for Stages 3 and 4 of the project.
- Runway 9/27 will be closed for a series of non-consecutive two day periods during the second stage of this project.
- Airport closed daily from 11:55PM to 5:30AM during the fourth stage of this project.
- Taxiway 'H' will be closed west of Taxiway 'E' periodically for hauling activities.

• What are alternate taxiway routes?

- Use Taxiway 'N' or 'B' to access Runway 9/27 or the north airfield when departing the general aviation T-hangars or corporate hangar area.

• Will construction equipment be crossing any active runways or taxiways?

- Construction vehicles will cross Taxiway 'H' west of Taxiway 'E' during the second stage of this project. A guard will be located at the crossing point at all times to ensure construction vehicles give way to aircraft.

As a reminder...

Check NOTAMs daily for availability/closures of airfield pavements and approaches.
