

Why do we keep sending YOU postcards?

Because—You hold a Flight Instructor Certificate, and
Because—You don't have an account on *FAASafety.gov*

Why do we want you to have an account on *FAASafety.gov*? Two reasons, really. First, *FAASafety.gov* is the premier portal for finding Aviation Safety information, including online courses, aviation resources, and local safety events. Plus, we've heard you loud & clear about the *WINGS* - Pilot Proficiency Program; watch for major user-requested & user-friendly changes coming soon! Second, if you have an account, we don't spend money sending you post cards!

Here's How—Sign-in at *FAASafety.gov*, using your e-mail address and setting your password. Then, click on **My Preferences**. You can check or uncheck the boxes for email preferences. That way you're in charge. We've been listening to you and here's one more good answer.

Airline Pilots—If you don't need or want our postcards, you can help us fix that. Go to *FAASafety.gov*, sign-in using your e-mail address, go to **My Preferences** and uncheck any selections you don't want! You're in charge!

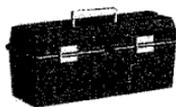

Aviation Safety Begins on the Ground and in the Hangar

Aviation Safety—Are You Doing Your Best?

As the example and mentor for the aviation maintenance community, you can motivate and encourage the current and next generation of mechanics by your example and by promoting the importance of recurrent training. We invite you to go to
