EFFECTIVE: October 06, 2011

PORTLAND ATCT/TRACON LETTER TO AIRMEN NO. 11-02

SUBJECT: Temporary Airport Traffic Control Tower (ATCT) at Pearson Field Airport (VUO) in Vancouver, Washington.

CANCELLATION: April 2, 2012

The FAA established a temporary Airport Traffic Control Tower (ATCT) at Pearson Field Airport (VUO) in Vancouver, Washington on April 1, 2011. The Tower will remain open until April 1, 2012.

The temporary ATCT hours of operation are 8:00 a.m. to 9:00 p.m. daily local time, but will be changing to 8:00 a.m. to 6:00 p.m. on November 6th.

Pilots arriving at VUO should contact VUO ATCT at least five miles from Pearson Field for entry into the Pearson Class D airspace. Pilots departing VUO should contact VUO ATCT prior to taxiing. Tower frequency remains 119.0, CTAF remains 119.0

Pilots should be aware of the close proximity of VUO and Portland International Airport (PDX) and that PDX traffic on the final to PDX RWY 10L directly overflies VUO.

If you have any questions, please contact Dave Daum, Support Specialist, PDX ATCT at dave.c.daum@faa.gov.
