

THE EAGLE HAS LANDED!

Embry Riddle Aeronautical University, whose mascot is an eagle, is proud to announce its newest campus location at the Alliance Airport in Fort Worth, Texas. The campus is located at 13600 Heritage Parkway, Suite 260, which is off I-35W, at the Heritage Parkway Keller Haslet / Westport exit.

The new campus will open for classes beginning May 28. Degrees to be offered are: Bachelor of Science in Professional Aeronautics (BSPA), Bachelor of Science Aviation Maintenance (BSAM), Master of Science in Project Management (MSPM) and the newest, and a Masters of System Engineering (MSE). All degree programs are designed for working adults, with courses held in the evenings or online.

The MSPM and MSE degree programs will be a particularly good fit for the Alliance area.

The MSPM was developed entirely by certified project managers, and is a registered program with the prestigious Project Management Institute.

The MSE, Embry-Riddle's newest degree, prepares students to effectively manage complex systems and engineering projects. Leaders who can effectively manage these efforts are in high demand across many industries in the Metroplex and U.S. Through a highly focused curriculum, students will establish a solid foundation of systems engineering knowledge; learning how to apply a systems perspective to business and technology.

For more information the Alliance Campus and its degree programs, please contact: Jeannie Simmons or Mary Bittle at 817-737-8180 or Email: fortworth@erau.edu.

Embry-Riddle Aeronautical University, the world's largest, fully accredited university specializing in aviation and aerospace, is a nonprofit, independent institution offering degree programs in its colleges of Arts and Sciences, Aviation, Business and Engineering. Embry-Riddle educates students at residential campuses in Daytona Beach, Fla., and Prescott, Ariz., and through the Worldwide Campus with more than 150 locations in the United States, Europe, Asia, Canada and the Middle East.
