

RUNWAY SAFETY ALERT

HOT SPOT 2: After landing, make sure you exit onto a taxiway, **NOT** another runway!

Preflight:

Be familiar with the Airport Diagram and published **Hot Spots** before your flight.

Maintain Situational Awareness:

Runways... **white** paint / **white** lights.

Taxiways... **yellow** paint / **blue** lights.

Tip:

Watch for yellow lead-off lines and signs that identify the route to your exit taxiway.

Visit the following websites...

http://www.faa.gov/airports/runway_safety/hotspots/hotspots_list

Or scan these codes for Hot Spot information...

MLI has experienced an increase in runway incursions over the past year.

Most of these incidents occurred when an arriving pilot exited onto an intersecting runway instead of a taxiway.
