HONOLULU CONTROL FACILITY  
760 WORCHESTER AVENUE  
HONOLULU, HAWAII 96818

ISSUED: November 19, 2012

EFFECTIVE: November 26, 2012

**HONOLULU CONTROL FACILITY LETTER TO AIRMEN NO. 12-06**

SUBJECT: Practice Instrument Approaches at, Lihue Airport, Molokai Airport, Lanai Airport, or Keahole-Kona Airport

CANCELLATION: November 26, 2014

Pilots are advised that IFR separation will be provided to VFR aircraft conducting practice approaches at Lihue, Molokai, Lanai or Keahole-Kona Airports. Except for heavy aircraft/B757, 500 feet vertical separation may be applied between VFR aircraft and between a VFR and an IFR aircraft. Pilot requests for practice instrument approaches should contact HCF Approach on the appropriate frequency as follows:

<u>Airport</u>	<u>Frequency</u>
Lihue	126.5 or 269.4
Molokai	124.1 or 317.5
Lanai	119.3 or 307.1
Keahole-Kona	126.0 or 278.3

Pilots not on an IFR flight plan should state, "Practice instrument approaches in VFR conditions," when requests are made to ATC. Controllers will issue VFR climb out instructions. If a pilot wishes to proceed in accordance with instrument flight rules, he/she must specifically request and obtain an IFR clearance. Practice approaches may be discontinued due to the volume of arriving and departing IFR aircraft.

For more information, refer to the *Aeronautical Information Manual* under "Practice Instrument Approaches," or call the Honolulu Control Facility at (808) 840-6201.
