FEDERAL AVIATION ADMINISTRATION

FLIGHT ADVISORY
VIP Visit California
July 22-24, 2014

The Federal Aviation Administration (FAA) will be issuing a Temporary Flight Restriction (TFR) in support of a VIP visit to San Francisco and Los Angeles, CA on July 22nd – 24th. These restrictions are designed to provide a safe and secure environment for the VIP visit while enabling fair and equitable access by other airspace users to the greatest extent possible.

Pursuant to 49 USC 40103(b), the Federal Aviation Administration (FAA) classifies the airspace defined in this advisory and the published NOTAM as 'National Defense Airspace'. Pilots who do not adhere to the following procedures may be intercepted, detained and interviewed by law enforcement/security personnel. Any of the following additional actions may also be taken against a pilot who does not comply with the requirements or any special instructions or procedures announced in this NOTAM:

- A) The FAA may take administrative action, including imposing civil penalties and the suspension or revocation of airmen certificates; or
- B) The United States Government may pursue criminal charges, including charges under Title 49 of the United States Code, Section 46307; or
- C) The United States Government may use deadly force against the airborne aircraft, if it is determined that the aircraft poses an imminent security threat.

Be advised that noncompliance with the published NOTAM may result in the use of force.

Temporary Flight Restrictions (TFR) will be in place over portions of Los Angeles and San Francisco as part of the security measures and will consist of a 30NM outer ring and a 10NM inner core from the surface up to but not including 18,000 FT MSL. The TFRs will be in effect in San Francisco on July 22nd - 23rd and in Los Angeles July 23rd and 24th.

The exact location and times for this TFR have not yet been determined. Check published NOTAM for latest information.

The restrictions described below are typical for a visit of this type and are provided for information only.

See the published NOTAM for actual instructions.

Aircraft flight operations will be prohibited except as specified below and/or unless authorized by ATC in consultation with the Air Traffic Security Coordinator via the Domestic Events Network (DEN):

- A. Within the 10NM inner core, all aircraft operations are prohibited except for:
 - 1. Approved law enforcement, air ambulance flights and military aircraft directly supporting The United States Secret Service (USSS).
 - 2. Regularly scheduled commercial passenger and all-cargo carriers operating under one of the following TSA-approved standard security programs/procedures: Aircraft Operator Standard Security Program (AOSSP), Full All-Cargo Aircraft Operator Standard Security Program (FACAOSSP), Model Security Program (MSP), Twelve Five Standard Security Program (TFSSP) All Cargo, Or All-Cargo International Security Procedure (ACISP) and are arriving into and/or departing from 14 CFR Part 139 airports.

DRAFT

July 16, 2014

- B. For operations within the airspace between the 10 NMR and 30 NMR area listed above, known as the outer ring: all aircraft operating within the outer ring listed above are limited to aircraft arriving or departing local airfields, and workload permitting, ATC may authorize transit operations. Aircraft may not loiter. All aircraft must be on an active IFR or VFR flight plan with a discrete code assigned by an air traffic control (ATC) facility. Aircraft must be squawking the discrete code prior to departure and at all times while in the TFR and must remain in two-way radio communications with ATC.
- C. For operations within this TFR, all USSS vetted aircraft operators based in the area and all emergency/life saving flight (air ambulance/law enforcement/firefighting) operations must coordinate with ATC prior to their departure at a phone number to be provided in the published NOTAM to avoid potential delays.
- D. The following operations are not authorized within this TFR:
 - 1. Flight training
 - 2. Practice instrument approaches
 - 3. Aerobatic flight
 - 4. Glider operations
 - 5. Seaplane Operations
 - 6. Parachute operations
 - 7. Ultralight, hang gliding
 - 8. Balloon operations
 - 9. Agriculture/crop dusting
 - 10. Animal population control flight operations
 - 11. Banner towing operations
 - 12. Maintenance test flights
 - 13. Model aircraft operations
 - 14. Model rocketry
 - 15. Unmanned aircraft systems (UAS)
 - 16. Utility and pipeline survey operations

The NOTAM(s) discussed in this advisory may change with little or no notice. Pilots are advised to check NOTAM(s) frequently for possible changes prior to operations in the area.
