

DEPARTMENT OF TRANSPORTATION
FEDERAL AVIATION ADMINISTRATION
Corpus Christi (CRP) Air Traffic Contract Tower
6902 MCGLOIN RD
Corpus Christi, TX 78415

ISSUED: March 1, 2016

EFFECTIVE: March 5, 2016

Corpus Christi AIR TRAFFIC CONTROL TOWER LETTER TO AIRMEN NO. 16-01

SUBJECT: (CRP) CORPUS CHRISTI TOWER/TRACON and VALLEY TRACON
TEMPORARY CLOSURE

CANCELLATION: March 8, 2016

On Saturday March 5th the Corpus Christi Air Traffic Control Tower will close at 1900L (201603060100Z) and Class C services will not be available until it resumes operation on March 6th at 0300L (201603060900Z). Frequency 119.4 will be utilized as the Common Traffic Advisory Frequency (CTAF) when the tower is closed. RWY lighting and MALSRs will be on a fixed setting. IFR clearances and cancellations may be obtained through Houston Center on 128.15.

Note: Pilots should be aware that, due to controller workload, IFR clearances may not be immediately available to airborne aircraft. Aircraft requesting their clearances on the ground can expect an IFR clearance, traffic permitting.

ASOS is available however no ATIS will be available. The control Tower will not have obstruction lights. RWY 13/31 and associated TWYs are closed and unlighted. Use caution for construction areas.

In changing conditions, NOTAM's are the most current and reliable information, so please check NOTAM's, or contact FSS for the latest information.

Gregory A. Dunlop
Air Traffic Manager
Corpus Christi Tower/TRACON
