TFR ALERT

Florida

Nov 18
2016

November 22-24, 2016

There may be multiple
VIP Temporary Flight
Restrictions (TFR) in
and around West Palm
Beach, FL.

FAA PILOTWEB
site for NOTAMs:
[https://pilotweb.nas.faa.gov/
PilotWeb/](https://pilotweb.nas.faa.gov/PilotWeb/)

Who can fly...

Exact location and times may change. Pilots planning to fly in this region should check published NOTAMs frequently... **before every flight!**

Previous TFRs in this region have resulted in numerous airspace violations.

We need your help in getting the word out:

Please pass this information along to as many pilots and aviation professionals as possible

The procedures contained in this alert describe a typical 3NM Security TFR. Check the **published NOTAMs** for any changes or unique procedures. Several types of operations may be prohibited during this event. The published NOTAM will have specific details.

3NM Ring: IFR and VFR flights are permitted as long as they are squawking a discrete beacon code and talking to ATC. You may land or depart airports within the TFR and fly through the TFR as long as you follow the appropriate procedures. You shouldn't loiter within the TFR for any reason.

The FAA, the Department of Defense and other federal agencies will be closely monitoring and patrolling this airspace looking for violators.

Airport operators, managers and flight schools, please post this notice as widely as possible. If you know of an event planned for this weekend please check the published NOTAM to see if there is a conflict.

A FRIENDLY REMINDER COULD PREVENT AN AIRSPACE VIOLATION!
