

FEDERAL AVIATION ADMINISTRATION
HEADQUARTERS WASHINGTON, DC

SUPER BOWL LIV FLIGHT ADVISORY

At the request of the Department of Homeland Security, the Federal Aviation Administration will establish airspace restrictions over Super Bowl LIV, to be played February 2, 2020 at Hard Rock Stadium in Miami, FL. NOTAMs will be issued depicting a 99.7 "Special Security Instruction" Temporary Flight Restriction (TFR) to be implemented as follows:

Under the authority granted by 49 USC, the FAA may apply restrictions within airspace under its jurisdiction. Any person who knowingly and willingly violates these restrictions may be subject to certain criminal and/or civil penalties. Pilots who violate security TFRs or procedures may be intercepted, detained and interviewed by Law Enforcement/Security Personnel. They may also be subject to the following actions:

1. The FAA may take administrative action, including imposing civil penalties and the suspension or revocation of airmen certificates;
2. The United States Government may pursue criminal charges, including charges under Title 49 of the United States Code, Section 46307;
3. The United States Government may use deadly force against the airborne aircraft, if it is determined that the aircraft poses an imminent security threat.

The following restrictions will apply from 1730 local to 2359 local on February 2, 2020:

10NMR INNER RING RESTRICTIONS:

All aircraft flight operations are prohibited from the surface up to, but not including FL180 within a 10 Nautical Mile Radius (NMR) of 255828N/0801419W or the FLL/VORTAC 218 degree radial at 7.6NM except as follows:

1. Approved Law Enforcement, approved Military aircraft directly supporting the Super Bowl and approved Air Ambulance flights, squawking an assign discrete beacon code, are permitted within the inner ring as coordinated.
2. Regularly scheduled commercial passenger and all-cargo carriers operating under one of the following TSA-approved Standard Security Programs/Procedures: Aircraft Operator Standard Security Program (AOSSP), Full-All Cargo Aircraft Operator Standard Security Program (FACAOSSP), Model Security Program (MSP), Twelve Five Standard Security Program (TFSSP) All Cargo, or All-Cargo International Security Procedure (ACISP) and are arriving into and/or departing from 14 CFR Part 139 airports.
3. All aircraft departure operations within the 10NMR area must be security screened by TSA at Fort Lauderdale International Airport (FLL) prior to departure. Aircraft operators must register with the TSA for Gateway Screening no less than 24 hours prior to their scheduled departure time. Gateway Screening reservations may be obtained by contacting the TSA beginning at 0000 local on January 30, 2020 at (954) 635-1613 or (954) 635-1611.

10NMR TO 30NMR OUTER RING RESTRICTIONS:

All aircraft flight operations are prohibited from the surface up to, but not including FL180 between the 10NMR and the 30NMR of 255828N/0801419W or the FLL/VORTAC 218 degree radial at 7.6NM except as specified below:

1. All aircraft arriving or departing local airfields, and workload permitting, ATC may authorize transit operations. Aircraft may not loiter. All aircraft entering and exiting the TFR must be on an active IFR or VFR flight plan and must be assigned a discrete beacon code by an Air Traffic Control (ATC) facility. Aircraft must be squawking that code prior to departing within, and entering the TFR.
2. All aircraft entering or exiting the TFR must remain in two-way radio communication with ATC.

IN EFFECT FOR THE ENTIRE TFR:

For operations within this TFR, all emergency/life-saving flights (medical/law enforcement/firefighting) must coordinate with the FAA at the Miami Terminal Radar Approach Control (TRACON) prior to their departure at (305) 869-5432 to avoid potential intercept or delays.

The following operations are not authorized within this TFR: flight training, practice instrument approaches, aerobatic flight, glider operations, parachute operations, ultralight, hang gliding, balloon operations, agriculture/crop dusting, animal population control flight operations, banner towing operations, sightseeing operations, maintenance test flights, model aircraft operations, model rocketry, Unmanned Aircraft Systems (UAS), and utility and pipeline survey operations.

The FAA point of contact for Super Bowl LIV is the System Operations Support Center, available 0700-2300 Eastern at (202) 267-8276.
